

Prairieville Township Parks and Recreation Report
MaryAnn DeVries, Chairperson
June 2022

- The first holiday weekend of the year was a busy one. The weather was great and the crowds were huge. The plan at Gull Lake to keep traffic from parking on the road worked quite well. There is always room for improvement and TK and staff are constantly looking how to make things better.
- This is the time of year we are purchasing and like everyone we are running into increased costs. Last month I was telling about detours that we take as needs arise. Our latest new detour, we are currently having the Gull Lake bathrooms looked at. They are clogging up regularly and we are having a plumber in often to take care of things. TK is investigating and finding out the cost to fix this issue.
- We are talking to two vendors about updated cameras for our parks. We are starting by looking at Gull Lake and UCL. We will hopefully be making a decision at our board meeting on June 27.
- On behalf of Parks and Recreation, I have just completed two grants. One is to Barry County Parks and Recreation and the other to Barry County Recycling.
- There will be a concert at Municipal Park on Wednesday, July 6 at 7:30 pm with a raindate of July 7. Bring your chairs and enjoy some music put on by local music students.

*Wishing you a very safe and enjoyable
Fourth of July!*
