

**Prairieville Township Parks and Recreation Report**  
**MaryAnn DeVries, Lame Duck Chairperson**  
**November 2022**

- It all started in August, when the Parks and Rec Commission gave a proposal to Delton Crooked Lake Association for the Upper Crooked Lake Wash Station in 2023. Scott and I attended their meeting and left hopeful of a joint effort with the DCLA. We just received their response in October. In your packet you have their response and at the meeting I will give the status of our response to their response...
- If you haven't seen the new skid piers for Upper Crooked Lake, Lower Crooked Lake and Pine Lake, they are being stored behind the garage for the winter. They arrived in late October after a long but worthwhile process. These are totally ADA compatible and we are excited for our fishermen and women to enjoy them starting next spring.
- The other two things that involve the township are on the agenda. These are salting the parking lot/new snow bid coming in December and a change to Parks Manager salary from hourly to salaried.

**Wishing everyone safe and enjoyable holidays in November!**
